

the superior way to manage your BOLI and supplemental benefit plan policies

Our secure portal lets you easily manage your policies, reports and results. At Newcleus, we've helped hundreds of financial institutions select and manage their financing and compensation strategies.

To provide the best experience, we've created MINTS, a Multi-Informational Network Tracking System where clients can manage policies, generate reports and track results through a single dashboard.

Convenient for you and helpful for auditors, Newcleus MINTS is a safe and secure way to manage your investments and insurance portfolio.

A customized and secure online portal

Provides full access to all information related to your BOLI and supplemental benefit plans.

Ongoing compliance and due diligence

Social security sweeps, peer group analysis, concentration and lending limit analysis, carrier financials review, review of carrier ratings and comparative carrier analysis.

Non-qualified benefit administration

Complete support and servicing including general ledger entries for all your non-qualified supplemental benefit plans for the top executives and directors.

Complete data and storage retention

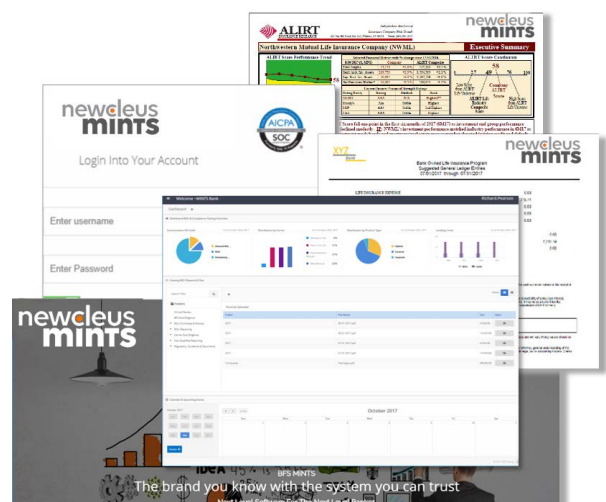

BOLI policies, employee consent forms, carrier annual reports, carrier statements, trust documents, plan legal agreements, forms and everything else related to your bank's plans and policies.

BOLI monthly, quarterly and annual reporting

Provides all of your bank's reporting needs as well as a fully compliant detailed annual review, executive summary and board memorandum.

Uncompromising security and service

Newcleus MINTS is brought to you in partnership with Microsoft. With this relationship, you can expect the highest level of security and customer service with regularly completed SSAE 18 SOC 1 Type II and SOC 2 Type 2 audits and 99.9% system uptime.
